

Crede Associates LLC

Nathaniel Weiss
Environmental Scientist I

TRAINING

- 40-Hr OSHA 29 CFR 1910.120 HAZWOPER
- 30-Hr OSHA Construction Safety

EDUCATION

- B.S. Environmental Science, Concentration in Natural Resources, Johnson State College (2012) Johnson, VT 05656

HIGHLIGHTS OF EXPERIENCE

Mr. Weiss is an Environmental Scientist I with Crede Associates, LLC and holds a Bachelor of Science in Environmental Science with a Concentration in Natural Resources from Johnson State College (2012). Since the start of his career in May 2019, Mr. Weiss has gained experience in natural resource assessment, hazardous building material abatement investigation, monitoring well sampling, and Phase I Environmental Site Assessments and investigation activities.

Environmental Site Assessments & Brownfields Programs

Mr. Weiss' work includes all aspects of ASTM compliant Phase I assessments including historical research, site investigations, report preparation, mapping and GIS analysis, and hazardous building material sampling. This includes work at the following sites:

- Lower Gloucester Village, New Gloucester, ME
- 202 Washington Street, Rochester, NH
- Weaver Wind Project, Hancock County, ME
- Weaver Wind Project, Washington County, ME
- 99 School Street, Gorham, ME
- Bingham Wind Project, Abbot, ME

Environmental Natural Resource Assessment

Mr. Weiss has experience in water sampling in freshwater environments, testing the clarity of the water using a Secchi disk, recording oxygen and temperature values throughout the water column, and collecting samples to test for phosphorous, alkalinity, pH, conductivity, and color. This includes work at the following sites:

- Ritterbush Pond, VT
- Lamoille River, VT
- Gihon River, VT
- Foot Brook, VT
- Brewster River, VT
- Lamoille River, VT
- Gihon River, VT
- Foot Brook, VT

Environmental Investigations and Groundwater Monitoring Programs

Mr. Weiss has experience in environmental sampling and analysis planning, groundwater and surface water monitoring, field screening and sampling using peristaltic pumps, as well as test drilling oversight, and soil sampling and characterization. He has worked at sites in New Hampshire, Maine and Rhode Island, including:

- Masonic Lodge, Yarmouth, ME
- R.W. Gillespie, Derry, NH
- Former U.S. Naval Base, Melville, RI
