HIGHLIGHTS OF EXPERIENCE

Mr. Brown is an Environmental Scientist II with Credere Associates, LLC. He holds a Bachelor of Science in Environmental Science from Southern New Hampshire University (2023). Prior to joining Credere, Mr. Brown spent four years in environmental consulting based in southern New Hampshire, where he completed more than 50 Phase I Environmental Site Assessments and supported Phase II investigations, environmental compliance programs, drilling and excavation oversight, and hazardous building materials assessments throughout New England. Mr. Brown is a New Hampshire licensed Asbestos Inspector.

Project experience listed below was completed prior to joining Credere Associates, LLC.

ENVIRONMENTAL SITE ASSESSMENTS

Mr. Brown's work includes all aspects of ASTM compliant Phase I and Phase II Environmental Site Assessments (ASTM E1527-21), including historical research, regulatory records review, site reconnaissance, environmental media sampling, data evaluation, and report preparation for commercial, industrial, and municipal clients. He has completed more than 50 Phase I ESAs. Projects include:

- Patriot Holdings, NH, MA, ME, VT
- 121 Hutchins Drive, Portland, ME
- Costco Wholesale, NH, MA, VT
- The Zinc (22 Water Street), Cambridge, MA
- Storyland, Glen, NH
- O' Reilly Auto Parts, NH, MA
- Raising Cane's, Manchester, NH
- Verizon Wireless, NH, MA, ME
- Water Country, Portsmouth, NH
- Time and Temperature Building

ENVIRONMENTAL INVESTIGATION AND GROUNDWATER MONITORING PROGRAMS

Mr. Brown has experience with soil and groundwater sampling, monitoring well sampling, field screening, laboratory data evaluation, and regulatory reporting. This includes work at the following sites:

- Portsmouth Naval Shipyard
- Portsmouth Regional Hospital, NH
- Pratt Homes, Nashua, NH
- 160 Water Street, Keene, NH
- Walmart DC, Raymond, NH
- O' Reilly Auto Parts, Warren, NH

DRILLING, EXCAVATION & UST OVERSIGHT

Mr. Brown has provided field oversight for environmental and geotechnical drilling programs, underground storage tank (UST) removals, and pre-excavation vacuum work. He also has provided long-term construction-period environmental oversight at redevelopment sites encumbered by an Activity and Use Limitation (AUL), including dust monitoring, environmental screening, and manifest review for off-site soil disposal. This includes work at the following sites:

Jared M. Brown

Environmental Scientist II

- 52 New Street, Cambridge, MA
- 7 Brew Coffee, NH, MA, ME
- Gaftek, NH, ME
- Innocenti Park, Beverly, MA
- 180 New Boston Street, Woburn, MA
- Solar Developments, NH, VT, ME, MA

HAZARDOUS BUILDING MATERIALS & INDOOR AIR QUALITY

Mr. Brown has conducted asbestos inspections, asbestos project monitoring, and air sampling in support of renovation and demolition projects, as well as specialized investigations addressing mold, radon, moisture intrusion, and indoor air quality. This includes work at the following Sites:

- TD Bank, NH, MA, VT
- Whole foods, Newton, MA
- Narragansett Bay Commission, Providence, RI
- Manchester, NH & Bedford, MA VAMC
- Portsmouth Naval Shipyard
- FAA, Concord, NH
- MIT Lincoln Laboratory, Lexington, MA
- USPS (955 Goffs Falls Road) Manchester, NH

ENVIRONMENTAL COMPLIANCE

Mr. Brown has performed environmental compliance inspections, including Spill Prevention, Control, and Countermeasure (SPCC) facility inspections, and has trained entry-level staff in field procedures and Phase I ESA protocols. This includes work at the following sites:

- 45 Newport Road, Hull, MA
- Delaney at the Vale, Woburn, MA
- Costco Wholesale, CT, NH, MA
- Country Pure Foods, Ellington, CT
- Hubbell, FL, TX, CA, OH, CT, IL
- 64 Dunham Road, Beverly, MA

PREVIOUS EXPERIENCE

TERRACON CONSULTANTS, INC.

MANCHESTER, NEW HAMPSHIRE | 2022–2026

Mr. Brown advanced from Geotechnical Intern to Field Scientist and then Staff Scientist. In addition to the project work described above, he secured placement on a regional bank's commercial vendor list and generated new work through sponsorships and client presentations targeting the commercial real estate and banking sectors. Mr. Brown was selected to train entry-level staff in field procedures and to participate in the firm's internal project management training program, and he established a peer-led safety cohort program to develop leadership among junior staff.

NEW HAMPSHIRE LAKES ASSOCIATION

NOTTINGHAM, NEW HAMPSHIRE | 2018–2019

Mr. Brown supported statewide aquatic monitoring efforts, collecting and reporting invasive species data to the New Hampshire Department of Environmental Services.
